“Epidemic of Vitamin D Deficiency: Fact or Fiction?”

Neil Buist, MD, FRCPE, Emeritus Professor of Pediatrics and Molecular & Medical Genetics, OHSU

Friday, June 1, 2012
0700 - 0800
SCMC - Bend, Conference Room C&D

Grand Rounds are broadcast live via videoconference to
Blue Mountain Hospital, Harney District Hospital, Lake District Hospital, Mt. View Hospital District, Pioneer Memorial Hospital and St. Charles - Redmond

Objectives: 1) Discuss the basic relationships between Vitamin D, PTH, calcium and phosphorus. 2) Describe the manifestations of D deficiency in children and differential diagnosis of rickets. 3) Discuss the current controversy on D levels and adult onset disorders. 4) Discuss the indications for assay of plasma D levels and the normal range.
